

# Haldane Terrace Bridge

## Planned bridge closures to reduce traffic in your local area

We're making changes to local neighbourhoods as part of our ambitions for safer, cleaner and greener neighbourhoods.

This includes installing better walking and cycling facilities in neighbourhoods to meet rising demand and reducing levels of traffic using quiet streets by closing small bridges.

The bridges include:

- Salters Bridge, Parklands ward
- Dene Bridge on Castle Farm Road, Dene and South Gosforth ward
- Haldane Terrace Bridge, South Jesmond ward
- Argyle Street Bridge, Ouseburn ward
- Stoneyhurst Road Bridge, Dene and South Gosforth ward

All the bridges are key routes for people walking or cycling to local schools or amenities but suffer from high levels of traffic cutting through residential streets rather than using more appropriate routes. We want to reduce levels of traffic in residential areas and by closing off these routes, we can stop unnecessary traffic from driving through local streets.

We are using Experimental Traffic Regulation Orders for closing the bridges. The legal orders will be operational from 13 August. Public consultation will be in place for six months.

Please visit our web site - <https://safenewcastlebridges.commonplace.is/> find out more about the bridge closure in your area and have your say.

You can email us [transport@newcastle.gov.uk](mailto:transport@newcastle.gov.uk) or phone 0191 277 7681 to leave a message and request a call back or information in another language or format.

# Haldane Terrace Bridge

**Haldane Terrace Bridge** is located in Jesmond and crosses the Tyne and Wear Metro Line. Haldane Bridge is already a popular route for people using active modes of transport, for journeys to nearby schools, and also as link for students and people travelling around Jesmond and towards the city centre on foot and bike. The bridge itself is narrow and has substandard footways which can pose problems for people on foot (and those with pushchairs and wheelchairs as examples).

The bridge is also located near Brandling Village which has recently experienced improvements to its cycling and walking infrastructure to alleviate some of the issues associated with school traffic in the area and increase safety for users.

We are using experimental traffic regulation order to close this bridge to vehicles. This will be operational from 13 August 2020. The bridge will remain open to people on foot and on bikes providing a safe and convenient route for people using active modes of transport for journeys in and around their local area.

Under an experimental traffic regulation order, the first six months of the closure is for public consultation. During this time, people can leave feedback and comments on the closure, and these will be considered before a final decision is made on whether or not to make the changes permanent. **Please visit our web site - <https://safenewcastlebridges.commonplace.is/> find out more about the bridge closure in your area and have your say.**

Haldane Terrace, Jesmond
